

Dairy Production, Economics and Food

Christian-Albrechts-Universität zu Kiel

Agrar- und
Ernährungswissenschaftliche Fakultät

The **master's program Dairy Science** focuses on the interdisciplinary aspects of on-farm milk production, dairy economics, and processing of dairy food & products.

The program is intended for students who hold a Bachelor's degree in agriculture or in a related field and with interest in a consecutive, multidisciplinary qualification with focus on dairy science.

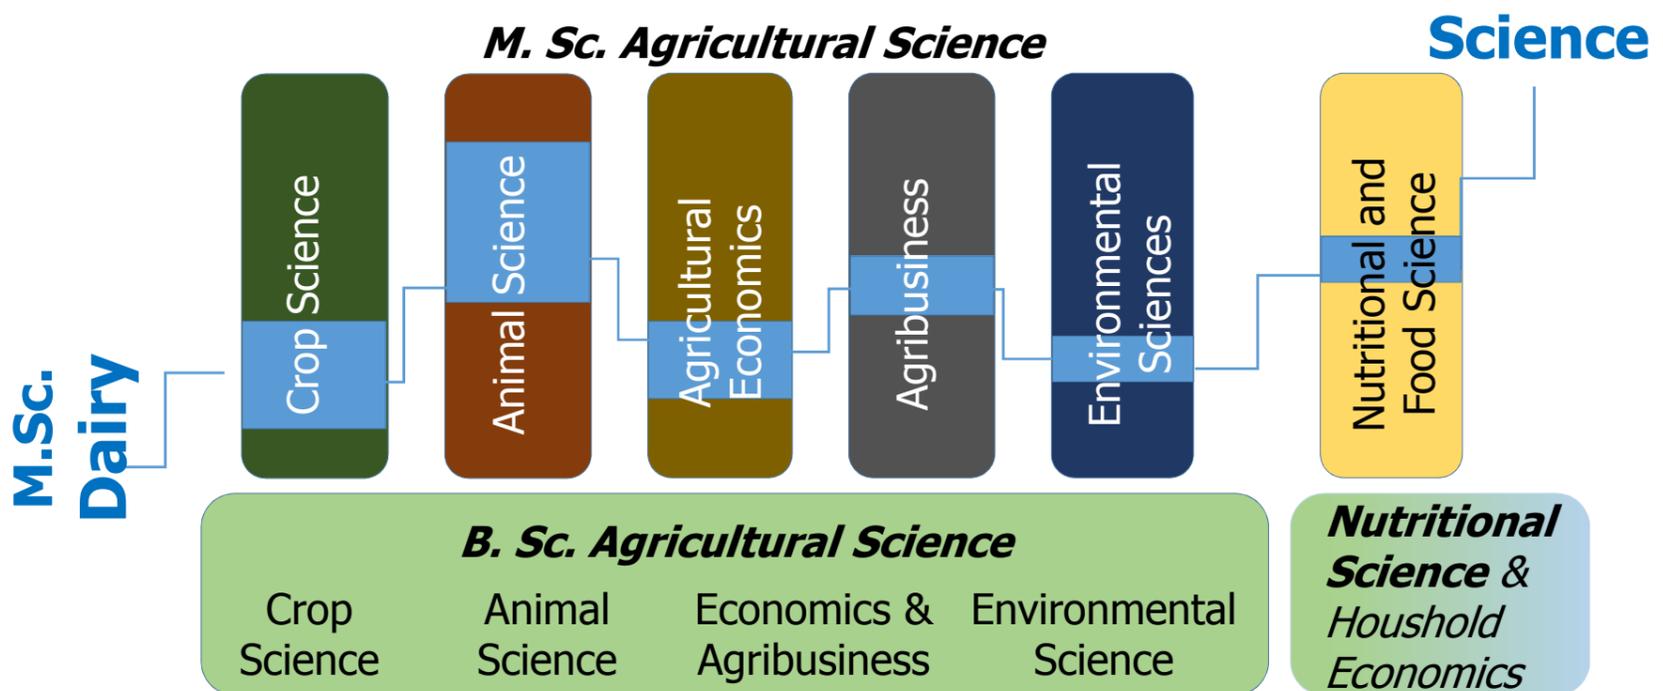

Figure 1: **M.Sc. Dairy Science** links relevant topics from several disciplines of the Faculty of Agricultural and Nutritional Sciences. Classes will be held in English and impart the most current scientific knowledge in **dairy economics, breeding, feed, nutrition and biochemistry, welfare and health, milking, eco-efficiency, and processing and quality of dairy products.**

Students strengthens their competences in the field of dairy science and acquire skills in analytical understanding of the entire dairy production process chain.

**Application period for semester start
in Oct 2018:**

February 15 - April 30, 2018
