

For our breeding stations in Rosenthal, Pocking and Colmar (France), we are looking for several

PLANT BREEDING INTERNS 2025

What can you expect from your internship?

Your internship will be an immersion into Limagrain breeding activities, a **period of three month is desirable**. Depending on the location, you can gain experiences in applied **maize, barley, rapeseed or wheat breeding**.

Locations in Germany: Rosenthal and Pocking

- Paid internship
- Housing assistance
- Functional trainings and workshops
- Overall understanding of our company and vision

The following list includes **some key activities** performed by the Plant Breeding Interns:

- Preparing and sowing nursery and trial seeds
- Field operations including scorings of agronomic and disease resistance traits
- Supporting selections in early breeding stages
- Performing cross breeding
- Harvest of early generations
- Processing and analysis of scoring data

This internship offers a unique opportunity to gain experience in practical plant breeding and to understand the structure and organization of an international seed company. This internship program is highly suitable for students who would like to follow a career path as a plant breeder.

Are you the right candidate?

- You are currently enrolled in a BSc or MSc program in agricultural sciences or related fields
- You should have a very strong interest in plant breeding and in quantitative genetics
- You should be aware that most of the work will take place outdoors, not in the lab or office
- Communication in German is an advantage

Do you feel ready for this adventure?

Please send your CV, a short letter describing your motivation to:

Limagrain GmbH, Irina Panin, Griewenkamp 2,
31234 Edemissen // Tel. (+49) 5176/9891-86
Bewerbung@Limagrain.de

***Deadlines** for possible internship periods:

- End of **January for Maize**: start in March/April
- End of **February for Rapeseed**: start in April to August
- End of **March for Cereals**: start in May to October
- End of **May for Maize**: start in July or September/October

Limagrain is an international leading company in breeding, production, and sales of innovative seeds to professional growers. With a worldwide presence, the dedicated teams are working closely together, within the framework of a global, sustainable vision of agriculture and agri-food based on innovation and regulation of agricultural markets.
